SCOPE OF SERVICES

This RFQ is to obtain statements of qualifications and work samples (each a "Proposal" and collectively the "Proposals") from appraisal firms with expertise in market research and analysis to measure demand for multifamily rental properties, including, but not limited to the following services described below. The Proposals will be used to identify and retain a pool or list of qualified appraisal firms to serve the Authority needs for determination of market demand for existing and proposed multifamily properties in Orleans Parish. Such properties either have been approved for financing or are under consideration for financial assistance through various federal and state subsidy programs.

The consultant should draft a report that includes the following information:

CRITERIA FOR APPRAISAL REPORTS

1. Appraisal reports shall be in writing and authorized/signed only by General Certified Real Estate Appraisers in the State of Louisiana ("Appraiser"). Photocopies of current license certifications of appraisers performing and signing the appraisal report shall be included as exhibits in appraisal reports.
2. The Appraiser shall not subcontract the appraisal assignment, or any portions thereof, without FANO's prior written consent.
3. A statement must be included in the appraisal report that the appraisal is prepared in conformance with the Uniform Standards of Professional Appraisal Practice (USPAP).
4. The Appraiser's principal appraiser shall personally perform a thorough, physical inspection of the development, which inspection shall include, but not be limited to, a review of the development's exterior, its common areas and at least one of each of the representative unit types and perform a thorough review of the proposed development's plans and specifications.
5. If, in the Appraiser's reasonable opinion, an appraisal assignment is/becomes substantially dissimilar to that which was understood by the Appraiser pursuant to this agreement, then the Appraiser shall immediately notify FANO in writing and not proceed further until receiving guidance/direction from FANO.
6. The appraisal report shall clearly define if a fee simple estate or a leased fee estate is being

appraised.

7. The Appraiser shall separate the “Land Only As-Is” Value of the development from the As-Is Building Value in the final report. The Appraiser shall provide separate figures for each, along with justification and support for such differentiation. The As-Is Value is the current market value of the property in its current physical condition, which value should be based on, among other things, consideration of any income, zoning, or use restrictions in place at the time of the valuation.
8. When verifying government subsidized contract rents for the development, if any, or any development used as a comparable property (either sale or rental), the Appraiser shall not rely solely on information provided by a property owner but shall provide independent verification.
9. The Appraiser shall include a highest and best use analysis that shall be thoroughly supported by economic facts contained in the appraisal report, which should consider among other things the “consistent use” methodology that assumes that the land cannot be valued on a different basis than the existing improvements on the property. The Appraiser shall provide regional and neighborhood data in the appraisal report. Any statistics supporting such information shall be analyzed and related to the development by the Appraiser in the appraisal report.
10. The Appraiser shall include current census tract data, with maps, in the appraisal report. The Appraiser shall thoroughly analyze census data rental statistics and relate such data to all estimated value conclusions.
11. The appraisal report shall contain a three (3) year history of the development. If the development has been on the market “for sale” within the past three (3) years, then the Appraiser shall include an analysis of the development’s asking price and any price adjustments (increases and/or reductions) thereto. If the development is under contract for purchase/sale, or if an option to purchase the development exists, then the Appraiser shall include an analysis of the contract/option price and/or option agreement and the terms and conditions thereof.
12. The appraisal report shall contain a study of the development’s market including data that supports the Appraiser’s analysis of the development’s market conditions. Data shall be provided to support the analysis regarding declining, stable or appreciating market conditions. The Appraiser shall analyze and report on current market conditions and trends that will affect estimates of income or absorption to the extent they affect the value of the subject property.
13. The appraisal report shall include the amount of the development’s annual real and personal property taxes and any past due taxes. The Appraiser shall comment on the reasonableness of the development’s assessment, its relationship to the assessments of comparable properties, assessment trends, and the timing of the municipality’s next revaluation. The appraisal shall include, as an exhibit to the appraisal report, complete photocopies of the municipality’s tax field cards for the development.
14. The Appraiser shall base its estimated value(s) of the development on existing zoning and the current income and use restrictions in place at the time of the valuation; however, the Appraiser may, if considered reasonable, also value the development based upon alternate zoning that is likely to be obtainable within a reasonable period of time. If an alternate zoning scenario is considered by the Appraiser in developing one (1) or more estimates of the development’s value, then the Appraiser shall state in the appraisal report its rationale, probability, and estimated timeframe for obtaining such alternative zoning. If a multifamily zoning exists or is considered a reasonable

alternate, then the Appraiser is strongly encouraged to incorporate a per unit value estimate.

15. The Appraiser shall include copies of all zoning, site, wetlands, topographical, and flood maps applicable to the development in the appraisal report.
16. The appraisal report shall include the Appraiser's opinion of the development's positive and negative attributes and conditions, including but not limited to any known or disclosed adverse environmental circumstances, and those of surrounding and/or competing properties. The Appraiser shall analyze the impact of such attributes and conditions on the development's value(s) as presented in the appraisal report. The Appraiser's "due diligence" in the discovery of any environmental hazards at the development shall be fully disclosed by the Appraiser in the appraisal report.
17. The Appraisal report shall include a statement that it is a "complete and self-contained" report. The appraisal report shall be self-contained thereby enabling FANO to clearly understand the Appraiser's conclusion(s) of the development's value(s) without having to reference any other documents. Any studies and/or reports referenced in the appraisal report but prepared by others shall be independently verified by the Appraiser to the extent that such studies and/or reports may impact any of the Appraiser's assumptions or conclusions contained in the appraisal report.
18. The appraisal report shall include detailed cost estimates to resolve any observed deferred maintenance or essential repairs, to correct any known or disclosed code violation(s), and/or to remedy curable, functional obsolescence at the development. The Appraiser shall specify whether such associated expenses have been considered in determining the development's estimated value(s). The Appraiser shall independently verify the reasonableness of any cost estimates provided by third parties for such repairs, alterations, or capital improvements to the development. Analyses performed by the Appraiser to verify or invalidate such third parties' cost estimates shall be included in the appraisal report.
19. A minimum of three (3) color photographs of the development's exterior (front, rear, street or location view) and a minimum of three (3) color photographs of the development's interior shall be included in the appraisal report. Additionally, color photographs of each of the development's amenities, including, but not limited to, an on-site management/leasing office, community center, pool, recreation areas/facilities, laundry facilities, etc., shall be included in the appraisal report.
20. Any favorable or detrimental conditions on or near the development shall be photographed, noted, analyzed, and included in the appraisal report.
21. The appraisal report shall include a minimum of one (1) exterior color photograph of each property that is referenced as being a "comparable" (closed sales, listings, or rentals) to the development.
22. The appraisal report shall include location maps of the development and all comparable properties (closed sales, listings, or rentals) referenced in the appraisal report. Such maps shall be clearly reproduced and the properties' locations on such map(s) shall be readily identifiable.
23. The appraisal report shall contain a minimum of three (3) comparable closed sales; however, FANO prefers that the Appraiser incorporate more than the minimum required comparable closed sales in the appraisal report. All comparable closed sales contained in the appraisal report shall be verifiable, and the Appraiser's source of the cited parameters associated with such comparable

closed sales shall be identified in the appraisal report.

24. If the Appraiser references a “pending” comparable sale in the appraisal report, then such “pending” comparable sale may only be used as a fourth or additional comparable sale in addition to the referenced minimum requirement. If the Appraiser includes a sale that closed more than three (3) years prior to the date of this agreement as a comparable closed sale, then such “dated” comparable closed sale may only be used as a fourth or additional comparable sale to the referenced minimum requirement. The Appraiser shall include an adequate and thorough explanation as to why such “dated” comparable closed sale remains a “valid” comparable.
25. The appraisal report shall contain detailed adjustment analyses of all comparable sales and comparable rentals. The Appraiser shall place particular emphasis on the location, neighborhood, design, unit mix, curb appeal, property rights transferred, terms of sale, conditions of sale, condition of property, and any additional features important to the particular circumstances of the property being considered as comparable to the development.
26. The appraisal report shall contain detailed comparable (closed sales, listings, or rentals) adjustment grids and the Appraiser shall properly account for all adjustments, in proper sequence, for each comparable property contained in the appraisal report. The Appraiser shall individually factor and clearly define and delineate all adjustments for comparable closed sales, listings, and/or rentals.
27. Any adjustment patterns applied by the Appraiser shall be consistent. Any condition adjustment of a comparable closed sale or rental property shall be made in relation to the development’s condition, NOT to the sale or adjusted sale price. The Appraiser’s use of, or failure to use, a time adjustment shall be explained, consistent with market conditions stated in the appraisal report.
28. If a competing property deemed by the Appraiser to be superior to the development is on the market “for sale” at an asking price that is equal to or less than the Appraiser’s opinion of the development’s “as-is” value (on a per unit basis), then the Appraiser shall analyze such value conclusion and substantiate/justify such asking price differential in the appraisal report.
29. The development’s historical income and operating expenses shall be reviewed for reasonableness, and any unusual trends or exceptions shall be noted by the Appraiser. The Appraiser shall review the development’s other income sources, to include any commercial income, for reasonableness and shall incorporate such other income in its projections only if the development’s historical operating statements and current market conditions demonstrate the future feasibility for such other income on an ongoing basis. Similarly, the Appraiser shall make no special adjustments to its estimate of the development’s future operating expenses due to a particular owner’s management expertise or economies of scale associated with management and/or ownership of multiple properties and an ability to receive discounts due to bulk purchasing potential. The Appraiser shall consider any unique circumstances (i.e., income producing equipment (such as washers or dryers) owned by the development) when projecting the development’s reserve for replacements, the amount of which reserve shall, at a minimum, be acceptable to FANO.
30. When using the income approach to calculate the development’s value(s), the Appraiser shall fully explain/justify its methodology/rationale in determining the overall capitalization rate applied to the development’s net operating income (NOI).
31. When using the discounted cash flow (DCF) approach to determine the development’s value(s), the Appraiser shall fully explain/justify its methodology/rationale in determining (i) the discount rate(s)

applied to the development's annual net cash flows, (ii) the reversionary capitalization rate(s) applied to the development's NOI in the reversion year, and (iii) the magnitude(s) of projected transaction costs occurring in the reversion year.

32. The Appraiser shall identify and thoroughly discuss any personal property, fixtures and/or intangible items that are not real property, but which may affect the development's value(s). The Appraiser shall separately analyze and thoroughly discuss any factors that may result in intangible property rights/restrictions with associated benefits/burdens in relation to the development's real property rights.
33. The development's valuation date shall be clearly stated in the appraisal report (e.g., "prospective market value is expected to be as of...", or "leased fee estate estimate of market value as of...").
34. A complete copy of the agreement, inclusive of the Supplementary Criteria, shall be included as an exhibit in the appraisal report.

CRITERIA FOR MARKET STUDY REPORTS

1. Market study reports shall be in writing and authored/signed by an authorized officer and the principal market analyst specified in this agreement ("Market Analyst"). Photocopies of the Market Analyst's professional credentials shall be included as exhibits in the market study report. Members of the Market Analyst's clerical and/or support staff shall not sign or initial a market study report on behalf of the authorized officer or principal analyst who authored the market study report.
2. Subcontracting of the market study assignment, or any portions thereof, is expressly forbidden without FANO's prior written consent.
3. The principal Market Analyst shall personally perform a thorough, physical inspection of the development, which inspection shall include, but not be limited to, a review the development's exterior, its common areas and at least one of each of the representative unit types and perform a thorough review of the proposed development's plans and specifications.
4. The Market Analyst shall verify with FANO's staff Underwriter that the Market Analyst has received and is incorporating the most current underwriting model for the development in the market study.
5. If, in the Market Analyst's reasonable opinion, a market study assignment is/becomes substantially dissimilar to that which was understood by the Market Analyst pursuant to this Agreement, then the Market Analyst shall immediately notify FANO in writing and not proceed further until receiving guidance/direction from FANO.
6. When verifying government subsidized contract rents, if any, for the development or any development used as a comparable property, the Market Analyst shall not rely solely on information provided by a property owner. The Market Analyst shall independently verify such rental income and any anticipated decreases/increases thereof with the mortgagee's asset manager, or comparable representative, monitoring such development. The Market Analyst shall identify the source's name, title, employer, and telephone number of such information in the market study report with respect to the development.

7. The Market Analyst shall provide regional and neighborhood data in the market study report. Any statistics supporting such information shall be analyzed and related to the development by the Market Analyst in the market study report.
8. The Market Analyst shall include current census tract data, with maps, in the market study report. The Market Analyst shall thoroughly analyze census data rental statistics.

The Executive Director/Chief Executive Officer of FANO will establish the Selection Committee with relevant subject-matter expertise in reviewing and evaluating responses to a solicitation.

Proposals received in response to this solicitation may be evaluated using a two-stage evaluation process. Stage I of the evaluation process will be used to determine the respondents to be included in the competitive range (pass/fail basis), from which final selection for contract award will ultimately be made. Stage II of the evaluation process may entail interviews and/or presentations with the respondents included on the short list. Respondents not included on the short list will not proceed to Stage II of the evaluation process. The purpose of the interviews is to promote the understanding of FANO’s requirements with respect to this RFQ, promote the understanding of the respondents’ proposals, and to arrive at agreeable contract terms.

FANO will award a contract(s) resulting from this solicitation to the responsible offeror whose offer, conforming to the solicitation, will be most advantageous, technical, price and other factors specified herein considered. FANO reserves the right to make contract award without negotiations, and to make no award or decline to enter negotiations should it believe that no respondent to this RFQ will be capable of delivering the necessary level of services within an acceptable price range and/or time period. FANO further reserves the right to forego Stage II of the evaluation process and enter into negotiations based on the results of Stage I of the evaluation process. FANO may exercise its right to make contract award without negotiations or to forego Stage II of the evaluation process, where a contract award may be based on initial proposals received.

14. SUSPENSION. FANO may suspend this Contract at any time and for any reason by giving two (2) business day's written notice to the Contractor. The Contractor will resume work upon five (5) business day's written notice from FANO.

15. CONFLICT OF INTEREST. In the interest of ensuring that efforts of the Contractor do not conflict with the interests of FANO, and in recognition of the Contractor's responsibility to FANO, the Contractor agrees to decline any offer of employment if its independent work on behalf of FANO is likely to be adversely affected by the acceptance of such employment. The initial determination of such a possibility rests with the Contractor. It is incumbent upon the Contractor to notify FANO and provide full disclosure of the possible effects of such employment on the Contractor's independent work in behalf of FANO. Final decision on any disputed offers of other employment for the Contractor shall rest with FANO.

For the purposes of this provision, an "ownership interest" shall not be deemed to include ownership of stock in a publicly traded corporation or ownership of an interest in a mutual fund or trust that holds an interest in a publicly traded corporation. If the Contractor fails to submit the required affidavits, FANO may, after thirty (30) days' written notice to the Contractor, take such action as may be necessary to cause the suspension of any further payments until such the required affidavits are submitted.

19. PROHIBITION AGAINST FINANCIAL INTEREST IN AGREEMENT. No elected official or employee of FANO shall have a financial interest, direct or indirect, in the Contract, including through any financial interest held by the spouse, child, or parent. Any willful violation of this provision,

with the expressed or implied knowledge of the Contractor, will render this Contract voidable by FANO and shall entitle FANO to recover, in addition to any other rights and remedies available to FANO, all monies paid by FANO to the Contractor pursuant to this Contract without regard to the Contractor's satisfactory performance.

20. PROHIBITION ON POLITICAL ACTIVITY. None of the funds, materials, property, or services provided directly or indirectly under the terms of this Contract shall be used in the performance of this Contract for any partisan political activity, or to further the election or defeat of any candidate for public office.

For any subcontractor proposed to be retained by the Contractor to perform work on the Contract with FANO, the Contractor must provide notice to FANO within thirty (30) days of retaining that subcontractor. If the Contractor fails to submit the required lists and notices, FANO may, after thirty (30) days' written notice to the Contractor, take any action it deems necessary, including, without limitation, causing the suspension of any payments, until the required lists and notices are submitted.

22. NON-EXCLUSIVITY. This Contract is non-exclusive and the Contractor may provide services to other clients, subject to FANO's approval of any potential conflicts with the performance of this Contract and FANO may engage the services of others for the provision of some or all of the work to be performed under this Contract.

23. CONVICTED FELON STATEMENT. 31. NON-WAIVER. The failure of FANO to insist upon strict compliance with any provision of the Contract, to enforce any right or to seek any remedy upon discovery of any default or breach of the Contractor at such time as the initial discovery of the existence of such noncompliance, right, default or breach shall not affect or constitute a waiver of FANO's right to insist upon such compliance, exercise such right or seek such remedy with respect to that default or breach or any prior contemporaneous or subsequent default or breach.

32. REMEDIES CUMULATIVE. No remedy set forth in the Contract or otherwise conferred upon or reserved to any party shall be considered exclusive of any other remedy available to a party.
